It is solemnly alleged that the Creek Indian is never guilty of kissing his wife. The Creek Indian is a very sensible man. We admire his keen judgment and sound discretion.

EX-SENATOR Ross has beat the protesting New Mexicans all along the line, has been confirmed as Governor of the territory, and is as serenely happy as a storm-tossed politician can be who has won success at last. Ross won't have to "work at the case" any more during Cleveland's administration at least.

Panis is to have an electric light tower nearly 1000 feet high, the light of which is to be seen 200 miles. We would advise the founders of that mirage of a city, Kanopolis, to erect a tower of equal height before they build a house or lay a sidewalk. It would make a daisy of an advertisment, and also make Kansas City and Denver jealous.

Ir is rumored that the John A. Apderson cause has become so shaky in Dickinson county that Dr. J. M. Hodge is to become a candidate for Congress in his interest. The doctor may be a popular man at home and undoubtedly he is; but will he be able to draw the wool over the eyes of the Dickinson county people to such an extent as is intended by the Doctor's candidacy? We think not!

McPircason is doing considerable bragging just now over its advantages as a great railroad center. With the Union Pacific, the Santa Fe, the Missouri Pacific in prospect from Newton, and the recent survey of the Rock Island through that place, the McPhersonites are very happy. They have only one thing to lament and that is, their beloved town is too near Salina to amount to "any great shakes."

THE confirmations of Glick and Acers do not yet make their appearnnce. Our Kansas Senators have been pretty well instructed as to the feeling of the G. A. R. upon Glick's confirmation, and as well instructed by the temperance element of the State the temperance element of the State relative to the feeling toward Acers.

These two "instructors" are too powerful to be disregarded, and the Senators will not vote for the confirmation of either party in the face of the objections have been greatly modified or withdrawn. There is an ar-gument in some quarters that there their wheat in it. should not be any opposition to the confirmation of either Glick or Acers, but to let Democracy shoulder the reaponsibility. We do not approve of this. The appointments are a disgrace, and the Senators should not become parties to the elevation of such men to office.
